DETACHABLE ROPE GRAB

PART NUMBER: **RG13D**

DESCRIPTION

The LINQ detachable rope grab is made from high strength aluminium, which makes this extremely lightweight, portable, and easy to use. The push button pin allows the worker to secure the rope grab at any time, whilst also allowing for quick and efficient removal when required. The non-aggressive cam design has smooth rounded teeth greatly reducing unnecessary wear to the outer rope sheath.

FEATURES & BENEFITS

- Lightweight construction design for easy portability.
- Pip pin (push pin) axle for ease of securing and removal from rope.
- Plastic covered steel wire holds cam and pin in place to prevent loss of components.
- Non-aggressive cam precludes unnecessary wear and tear to rope when under tension.
- Hard wearing anodised finish.

STANDARDS

Certified to EN567.

PRODUCT DETAILS

- Weight: 185gms
- Suitable for rope from 9.0 mm- 13.0mm

APPLICATIONS

Any activity requiring the use of a detachable style rope grab for easy on and off.
