

Rope Grabs – RG13D

- The LINQ detachable rope grab is made from high strength aluminium, which makes this extremely lightweight, portable, and easy to use. The push button pin allows the worker to secure the rope grab at any time, whilst also allowing for quick and efficient removal when required.
- The non-aggressive cam design has smooth rounded teeth greatly reducing unnecessary wear to the outer rope sheath.
- Lightweight construction design for easy portability.
- Pip pin (push pin) axle for ease of securing and removal from rope.
- Plastic covered steel wire holds cam and pin in place to prevent loss of components.
- Non-aggressive cam precludes unnecessary wear and tear to rope when under tension.
- Hard wearing anodised finish.
- Certified to EN567.
- Weight: 185gms
- Suitable for rope from 9.0 mm- 13.0mm

Rope Grabs – RG16

- LINQ Rope Grab 16mm Maximum Rope Diameter
